

## **Review for Marine Science Quiz on Invertebrates (Ch 15)**

**-Review the invertebrate phyla:**

**Porifera**

**Cnidaria**

**Mollusca (and classes gastropoda, bivalvia, and cephalopoda)**

**Arthropoda (and superclass crustacea including krill, copepods, decapods)**

**Echinodermata (and classes asteroidea, ophiuroidea, echinoidea)**

**Review the examples of organisms that live in each of these phyla and classes and the characteristics found in these animals.**
